Mr. N. P. Iglehart was a little more modest. He only borrowed some \$20,000 during the first year. His genius was exerted to diffuse the benefits of the concern by extending its circulation. A SCOUNDREL .- The Wayne County Record warns the public of a scoundrel named Charles W. Appleton, who came to Centreville in 1835, as a circuit preacher of the Methodist church. After preaching there about a year, he opened book-store, and soon after removed to Richmond, in the same county. He remained in Richmond about two years, when he failed. He then commenced studying medicine, and spent his time at that and loafing at grog-shops, about six months, when he started for the East, leaving his wife and family in destitute circumstances. The merchants of Richmond entrusted him with several huns dred dollars to be paid at the East, which he appropriated to his own use. At York, Penn, he became acquainted with a young ton, of Illinois, and married her -- his wife here still living.
